

Effective revision strategies for SCIENCE

1. Use the BBC Bitesize website - [KS3 Science - BBC Bitesize](#)
2. Revise in short bursts (20 to 30 minutes).
3. Make revision active instead of passive - create revision quiz cards and use them/complete online quizzes that provide you with feedback.
4. If you are unsure where to start, ask your teacher for help.
5. Check Google Classroom for revision lists/resources that have been posted by your teacher/subject.
