

Effective revision strategies for PERFORMING ARTS

1. Write down key vocabulary on flash cards with the definition on the back. Get someone to test you on your flashcards to put your memory under pressure.
2. Rehearse key performance skills in preparation for your performance.
3. Rehearse tongue twisters to improve your vocal skills.
4. If you are preparing for a music performance and have access to an instrument, rehearse your skills.
5. Take time to plan your music/expressive arts performance so you are prepared for your assessment.
